Professional Summary

Computer Science and Engineering graduate specializing in Artificial Intelligence with hands-on experience in Full Stack Software Development. Currently working as a Full Stack Software Developer Intern at Secon Pvt. Ltd., developing enterprise applications using C, ASP.NET Core 8, .NET 8, PostgreSQL, JavaScript, HTML, and CSS. Leading the development of the Secon Library Management System as Team Lead. Skilled in designing scalable web applications, REST APIs, database systems, and AI-driven solutions using modern development technologies.

Professional Experience

Full Stack Software Developer Intern

Present **Secon Pvt. Ltd.**

- Developing enterprise web applications using C, ASP.NET Core 8, .NET 8, PostgreSQL, JavaScript, HTML, and CSS.
- Selected for a company project based on outstanding internship performance.
- Leading the development of the **Secon Library Management System** as Team Lead.
- Managing task allocation, project coordination, GitHub workflows, and team collaboration.
- Designing and implementing RESTful APIs and backend services using ASP.NET Core 8.
- Developing and optimizing PostgreSQL database schemas, queries, and stored procedures.
- Collaborating with stakeholders during requirement gathering, testing, debugging, and deployment.

Education

KLEF Deemed to be University, Guntur 2022 – 2026 B.Tech in Computer Science and Engineering (Artificial Intelligence) CGPA: 9.2/10

Aditya Junior College, Kakinada

2020 – 2022 Intermediate (MPC) – 89

Sri Chaitanya School, Yanam

2019 – 2020 SSC – 96

Projects

Secon Library Management System

Team Lead

- Leading a team in developing a centralized library management platform.
- Building secure backend services using ASP.NET Core 8 and PostgreSQL.
- Managing source control, code reviews, and project workflows using GitHub.
- Implementing modules for book management, user management, issue/return tracking, and reporting.

Smart City Application

Java Full Stack Developer

- Developed a centralized smart city platform using Java, JSP, Hibernate, MySQL, HTML, and CSS.
- Built modules for city planning, emergency services, and citizen feedback management.
- Integrated Hibernate ORM and deployed the application using Apache Tomcat.

Student Performance Analytics and Reports

MERN Stack Developer

- Developed a full-stack academic analytics platform using MongoDB, Express.js, React.js, and Node.js.
- Built teacher and student portals with performance dashboards and reporting features.
- Implemented REST APIs and secure data management functionalities.

- Built a deep learning pipeline using TensorFlow, CNN, RNN, LSTM, and GRU architectures.
- Performed data preprocessing, augmentation, hyperparameter tuning, and model evaluation.
- Improved object detection performance through optimizer comparison and experimentation.

Technical Skills

Programming Languages: C-sharp, Java, Python, JavaScript

Frameworks Technologies: ASP.NET Core 8, .NET 8, Spring Boot, Hibernate, MERN Stack, React.js, Node.js, Express.js, Django, TensorFlow

Databases: PostgreSQL, MySQL, MongoDB

Web Technologies: HTML5, CSS3, Bootstrap, JavaScript

Tools: Git, GitHub, Visual Studio, VS Code, Android Studio, Power BI, Linux

Core Subjects: Data Structures Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Machine Learning, Deep Learning

Certifications

- AWS Certified Cloud Practitioner
- Red Hat Enterprise Application Developer
- Salesforce Certified AI Associate
- Automation Anywhere RPA
